

PRE-SLIT WEATHERPROOF INSULATION

Our new pre-slit PVC coated insulation provides outstanding protection against freezing, for external boiler condensate pipework. This new design offers a quick and secure 'tape free' installation, with its peel and seal join and its self-adhesive wrap over flap. Fully compliant with the Boiler Installation Standards BS6798:2014, the tough PVC coating is both weatherproof and UV stable.

This insulation is also ideal for use on air source heat pumps or biomass flow and return pipework, to avoid heat loss and meet MIS3005 requirements. To prevent cold bridging use it in conjunction with our Through Wall Sleeve Kit, TW-KIT, to ensure the pipework is fully insulated all the way into the property.

Visit our **YouTube** site for a full installation demonstration:

FEATURES

- Avoids heat loss and improves efficiency of the installed air source heat pump
- 19mm wall insulation with a tough PVC coating • Suitable for 28mm / 32mm / 22mm pipework

THE PACKAGE

- 1 x straight 2000mm length of pre-slit 35mm, 28mm or 22mm ID insulation

STEP ONE
Open the pre-slit insulation.

STEP TWO
Wrap around the pipe, peel away yellow cover and seal together. Use the adhesive flap to secure.

STEP THREE
Condensate pipework is now fully protected with **NEW** pre-slit weatherproof insulation

No.	Description
FH-I-1000-22-SLIT	Insulation 1m x 22mm ID x 19mm wall PVC coated Slit & Seal
FH-I-1000-28-SLIT	Insulation 1m x 28mm ID x 19mm wall PVC coated Slit & Seal
FH-I-1000-35-SLIT	Insulation 1m x 35mm ID x 19mm wall PVC coated Slit & Seal
